SENATE BILL

No. 1185

Introduced by Senator Price

February 22, 2012

An act to add *and repeal* Part 12.2 (commencing with Section 15910) ~~to~~ of Division 3 of Title 2 of, ~~and to repeal Section 15923 of,~~ the Government Code, relating to ~~the Centralized Intelligence Partnership Act~~ *underground operations*.

LEGISLATIVE COUNSEL'S DIGEST

SB 1185, as amended, Price. Centralized Intelligence Partnership ~~Act~~. *Act: pilot program.*

Existing law requires various state entities, including, but not limited to, the State Board of Equalization, the Franchise Tax Board, and the Department of Justice, to enforce laws relating to the taxation and legal operation of businesses throughout the state under their respective jurisdictions.

This bill would *establish, until January 1, 2018, a pilot program to create a multiagency partnership consisting of ~~specified state entities~~ the Employment Development Department, Franchise Tax Board, and State Board of Equalization, to be known as the Centralized Intelligence Partnership, to collaborate in combating illegal underground operations by, among other activities, providing a central intake process and organizational structure, with an administrator and support staff, to document, review, and evaluate data and complaints. The bill would authorize other specified state entities to participate in the pilot program in an advisory capacity.* The bill would create an advisory committee, comprised of one representative from each entity in the partnership,

and those serving in an advisory capacity, as specified, to provide guidance on the activities and operations of the partnership. The bill would require the advisory committee to the partnership to determine the appropriate agency to house the processing center for the partnership. The bill would authorize duly authorized representatives of members of the partnership to exchange information for the purpose of investigating illegal underground operations. The bill would require the partnership, ~~starting~~ on or before July 1, 2014, to annually report to the Legislature and entities participating in the partnership on its activities. The bill would require an additional report to be filed with the Legislature by December 1, ~~2018~~ 2016, to include the number of complaints received by the partnership and cases investigated or prosecuted, as specified.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. The Legislature finds and declares all of the
2 following:

3 (a) According to the Employment Development Department’s
4 analysis of findings made by the Internal Revenue Service, the
5 underground economy in California is estimated to be between
6 sixty billion dollars (\$60,000,000,000) and one hundred forty
7 billion dollars (\$140,000,000,000) each year.

8 (b) According to the State Board of Equalization, an ~~average~~
9 *estimate* of eight billion dollars (\$8,000,000,000) in corporate,
10 personal, and sales and use taxes goes uncollected in California
11 each year, with unreported and underreported economic activity
12 responsible for the vast majority of that total.

13 (c) *For purposes of this section, “underground economy” means*
14 *the activities of individuals, businesses, or other entities that*
15 *knowingly and intentionally use practices designed to conceal*
16 *illegal or fraudulent activities that negatively impact legitimate*
17 *businesses, workers, and consumers, as well as deprive the state*
18 *and local governments of vital resources.*

19 (e)

20 (d) The underground economy hurts all Californians. Revenues
21 to support government services are lost, workers are forced to go

1 without basic employment protections, and legitimate businesses
2 are confronted with unfair competition.

3 ~~(d)~~

4 (e) Since the activities of many operating in the underground
5 economy span across multiple jurisdictions, various joint agency
6 enforcement efforts have been undertaken to combat the
7 underground economy, including, but not limited to, the creation
8 of the Joint Enforcement Strike Force on the Underground
9 Economy in 1993, and the creation of the Economic and
10 Employment Enforcement Coalition in 2005. Furthermore, various
11 individual agency efforts have been created, including, but not
12 limited to, the State Board of Equalization's Statewide Compliance
13 and Outreach Program and the Contractors' State License Board's
14 Statewide Investigative Fraud Team. Thus, investigative
15 collaboration among state agencies is not a new concept in
16 California. Many collaborative efforts are already under way,
17 pursuant to which investigators periodically meet to discuss current
18 investigations, collaborate to conduct sting operations, and develop
19 best practices policies.

20 ~~(e)~~

21 (f) Despite significant statewide efforts, California continues to
22 lose billions of dollars in annual revenue due to the underground
23 economy.

24 ~~(f)~~

25 (g) The Legislature intends this act to enhance existing efforts
26 to combat the underground economy by institutionalizing
27 collaboration among state agencies through a Centralized
28 Intelligence Partnership, *a pilot program* that acquires relevant
29 data for collaborative data analysis, economic threat assessment,
30 strategic planning, and provides a referral tracking and value-added
31 referral disbursement process to monitor the progress and measure
32 the success of the partnership activities. This collaborative effort
33 to combat the underground economy will, in turn, further aid the
34 state in its progress toward preventing human trafficking. The
35 Legislature recognizes that the state needs to comprehensively
36 address the underground economy and capitalize on each agency's
37 enforcement efforts and investigative resources by creating the
38 Centralized Intelligence Partnership. A key element of this effort
39 is to authorize and facilitate data and intelligence sharing among
40 the Centralized Intelligence Partnership and state agencies. It is

1 the intent of the Legislature in enacting this act to focus on the
 2 criminal and civil prosecution of those operating in the
 3 underground economy in flagrant violation of the law. Businesses
 4 that are in compliance with state employment, safety, licensing,
 5 and tax laws that are found to have committed minor or inadvertent
 6 violations of existing law are to be addressed through other
 7 administrative procedures.

8 ~~(g)~~

9 (h) It is the intent of the Legislature that this act be part of
 10 ongoing efforts by the Legislature to combat the underground
 11 economy in this state through legislation.

12 SEC. 2. Part 12.2 (commencing with Section 15910) is added
 13 to Division 3 of Title 2 of the Government Code, to read:
